VOICES OF THE ORPHANS

My name is Billy Ochieng.

I learn from Benard Vision School. I am a young boy. I am 12 year old. In school I work hard and this year I am in class 5. In school the teachers usually tell us to have good characters. During closing day the school uniform was changed and now we have been given, I am crying as my heart is shaking like the wall of Jeracho. May

you help me to continue my education.

One night when I was sleeping a very funny nightmare came to me. An angel flew upon my bed and told me that the Lord has sent him to me that in school there are some boxes of shoes at the door of the school office. When I heard that I jump over the bed like a mad mouse.

After that day, I went to school in the morning. I found the office locked and some men lifting the boxes to the stove. In this afternoon I have a shining shirt like a cluster of stars and shorts with a maroon pull over. I also have the shoes that I dream at bed. That year we were given two pair of shoes and some exersize books. Help me until the end where I lie in my coffin. Goodbye this afternoon. May God be with you and bless you. Thanks!

Sincerely,
Billy

Dear Friend,

It is my pleasure to write for hope in God that you are also fine. I want to tell you new year started I have the school has helped me opening day the school changed. We were told will not pay for the first I had to doubt because were so much costly.

Never the less, we were school director & the school we would be given a new pair of and a new sweater. One day as we were called by one of our teachers. We went to the office and the first thing I saw was the shiny shoes and the clothes. I had been given the uniform, I remembered what I had said to myself about the uniforms. I also said to myself that where there is a will there is also a way. I proposed what the wise man said that one good turn deserves another.

In addition to that, the school also provides for us free breakfast & lunch meals. It also saves energy. I used to treck from school to home searching for what to consume. Inspite of all, the school enables us to develop spiritually, mentally, and even how to take care of ourselves.

you this letter having safely kept. I am that since this seen a lot that with. On the uniform was that everybody uniform. At the uniforms

told by our committee that shoes, pair of socks, we sat in the class we
